

## AOPA AIRPORT SUPPORT

NETWORK  
ASN Alert # 020

Dear ASN Volunteers in CSW Region,

We have Great News! As you may recall, effective July 1, 2016, the ASN Volunteers were assigned to the Manager of the Region in which they reside. The Central Southwest Regional Manager's position was vacant at that time. Tom Chandler has been selected as the new CSW Regional Manager and is ready to engage with the ASN Volunteers. So allow me to introduce your new Regional Manager.

Tom Chandler is excited to join the AOPA team as the Regional Manager for the Central Southwest area covering NM, TX, LA, OK, AR, KS, MO, NE, and IA. A career GA professional and 27yr AOPA member, he brings broad experience as a professional pilot, airport manager, and entrepreneur to support our members and airports throughout the region. His long-held priorities include protecting airports, aviation safety, engaging youth in aviation, and the overall promotion of GA. He looks forward to representing AOPA members' interests at both the local and state levels to ensure a vibrant and sustainable general aviation industry for generations to come. Tom lives in the Dallas area with his two children.

In our effort to increase communication capabilities, we decentralized the ASN Volunteer program. Now, the first point of contact for the ASN Volunteers, is their regional manager. When you want to contact the ASN Staff, go to the ASN Only page of the AOPA website and click on the "Let us Know" link- <https://www.aopa.org/advocacy/airports-and-airspace/airport-advocacy/asn/asn-volunteers-only/asnvolunteerform>. When you complete the Web-Form, an email will automatically go to your regional manager, Tom Chandler, and a copy to you.

We look forward to a renewed effort to engage with all our ASN Volunteers and have another great year!

Thank you for Volunteering! We can't do it without you, all the Best,

Dawn Veatch

AOPA-Government Affairs

Senior Director, Airport and State Advocacy
