**FAX DISTRIBUTION #3**

TO: Airport Tenants  
FROM: Cynthia Stewart, Airport Manager  
RE: Change in Runway Availability

Following today's inspection of our active areas by the FAA and our pavement structural engineer, we are changing the limits for departures in order to allow large aircraft to take off on Runway 13R/31L.

The reduced runway length will remain in effect. The weight restriction on arrivals will remain in effect until further notice.

Please check NOTAMs for exact details.
