AFSS TELEPHONE BRIEFING TIPS AND TECHNIQUES

AVOID LONG TELEPHONE HOLD TIMES

- Use numeric prompts (see front side) to access specific services.
- For even faster service, press “1” and say “any” for first available briefer anywhere in the country.

GET A QUALITY PREFLIGHT BRIEFING

Ask for the appropriate briefing:

Outlook—A synopsis of expected weather and flight restrictions more than six hours out and up to five days ahead.

Standard—An in-depth briefing that provides current and forecast weather, adverse conditions, winds aloft, notams, and temporary flight restrictions (TFRs).

Abbreviated—An updated briefing based on a previously received “Standard” briefing.

Help the briefer help you:

- Have all flight plan information at your fingertips including correct airport and navaid identifiers, waypoints, and other relevant details.
- Ask for Local Notams and TFRs; don’t count on the briefer to automatically provide this information.
- Use phonetic alphabet pronunciation to avoid mistakes.
- Know how to express local times in Coordinated Universal Time (ZULU).

MAKE SURE YOUR FLIGHT PLAN IS FILED

- Ask the briefer to confirm your flight plan has been accepted.
- Note the FSS you filed with and the airport identifiers used in the flight plan. This will help locate your flight plan if it is lost.

IFR DEPARTURE

Expedite Your IFR Clearance

- Use the new FS21 dedicated IFR Clearance Delivery Telephone Number **(888-766-8267)** when departing IFR from a non-towered airport that does not have a remote communication frequency.

PROBLEMS? REPORT THEM IMMEDIATELY

If you experience poor performance with flight service, register your complaint with the FAA at **888-FLT-SRVC (888-358-7782)**. AOPA reviews these complaints weekly to ensure problems are addressed.
