| 7/23/2014 14:03 | Bellevue | Idaho | On July 23, 2014 at approximately 14:17 hours, I received a call from Blaine County Communications for a report of a "drone" which was harassing a "spray plane." I contacted the pilot, who said a "drone" was following him near Price Lane. I made contact with [redacted]. [redacted] stated he had been operating his DJI Phantom 2 drone when the plane was spraying the field. I explained to [redacted] if he was to cause his drone to hit the spray plane he would cause significant damage to the plane and possibly cause it to crash.[redacted] was very apologetic and stated he had no intentions of causing any damage or injury to anyone. |

| 5/29/2014 0:00 | Los Angeles | California | AIRCRAFT 1 AND AIRCRAFT 2 BOTH ON APPROACH TO RUNWAY 25L 20 MILE FINAL LAX REPORTED WHAT APPEARED TO BE A "TRASH CAN SIZED" UAV OR R/C AIRCRAFT EASTBOUND AT 6500. NO TARGETS OR PRIMARY RADAR RETURNS ON THE ACD. DEN ADVISED |
| 5/29/2014 0:00 | Salt Lake City | Utah | While flying in Salt Lake City Class B airspace today, the approach controller gave us a traffic warning of "unkown type and altitude" that popped up on radar about 1 mile in front of us. I spotted what I at first thought was big, birthday-party sized Mylar balloon. As we got a bit closer, it turned out to be a large-ish UAV with a flashing green light one side. I didn't get close enough to spot what model, brand, how many rotors, etc., but it was large enough to carry an SLR at least and did have something hanging on it. The camera was busy shooting down through the vertical port, so I didn't get a photo, and I didn't really want to circle back to take a closer look. We were 1,200ft AGL, and it was maybe 100ft above us, 6 miles South of Salt Lake International Airport, and well inside the surface area of the Class B airspace. |
| 5/25/2014 23:57 | Charleston | West Virginia | This bulletin is being provided for your situational awareness. At 23:57 on 25 May 2014 a drone was reported to be flying between 1000 and 2000 feet and had a close call with a US Airways Regional Jet near Yeager Airport in Charleston, WV. The drone was also spotted flying low over the Charleston Area Medical Center Women's and Children's Hospital helicopter pad. Updated information will be provided as if is received. |
| 5/25/2014 19:30 | New York | New York | PRELIM INFO FROM FAA OPS: NEW YORK, NY/UAS INCIDENT/1930E/NEW YORK TRACON ADVISED (VIA DEN) A UAS WAS RECOVERED BY NYPD AT APPROXIMATE 7:30 PM ON SUNDAY, 25 MAY, NEAR CITI FIELD IN NEW YORK. THE UAS WAS CARRYING A CAMERA AND HAD BEEN RECORDING DURING FLIGHT. NYPD REPORTEDLY REVIEWED THE UAS'S CAMERA SD CARD AND NOTICED IT HAD LAUNCHED OUT OF FLUSHING MEADOWS. |
| 5/24/2014 17:22 | Detroit | Michigan | Detroit Wayne ATCT (DTW) – Saturday, May 24, 2014 at 5:22 p.m. EDT: (SkyWest) SKW4644/CRJ2 en route to Detroit, MI (DTW) reported seeing a remote controlled aircraft at 1,600 feet on a three mile final for Runway 22R at DTW. The pilot reported that the remote controlled aircraft came very close to his aircraft. |

| | | | |
|----------------|----------------------|---------|--|
| 5/11/2014 0:00 | Kennedy Space Center | Florida | Report of lost link by an aircraft being flown at the Space Florida flight demonstration on May 11 that was recovered a mile from the demo site, but no investigation was conducted. |
| 5/4/2014 10:25 | Sunrise | Florida | SUNRISE, FL : N5793J, AS355F1, REPORTED A NEAR MISS WITH A DRONE NE OF THE BBAND T CENTER IN SUNRISE, FL. PILOT STATED THE DRONE WAS BEING OPERATED BY A PEDESTRIAN ON THE GROUND. 5/4 1025Z |
| 5/3/2014 0:00 | Atlanta | Georgia | DAL1382 B752 DESCENDING OUT OF 040 FOR A VISUAL APCH TO RWY 27L REPORTED A UAV OPERATING AT HIS ALTITUDE IN CLOSE PROXIMITY TO HIS AIRCRAFT. THE PILOT DID NOT INDICATE THAT IT WAS A NMAC AS THE UAV CONTINUED TO OPERATE TO HIS LEFT. THE UAV WAS DESCRIBED TO BE ABOUT FOUR FOOT SQUARE WITH 4 LEGS AND BRIGHT LIGHTS.TRAFFIC WAS NOT ISSUED AS NO PRIMARY OR SECONDARY RADAR RETURNS WERE VISIBLE ON THE RADAR SCOPE. |
| 5/1/2014 17:30 | Griffin | Georgia | While driving through Griffin, Georgia on 05-01-2014 at 1730 hours approx 1 mile east of 6A2 on Hill Street in between the intersections of Soloman Street and Taylor Street, I observed an "octo-copter" type UAS vehicle carrying a camera and operating directly over heavy traffic below the height of the adjacent buildings lining the street. I also observed several individuals at the intersection of Hill Street and Soloman Street conducting filming operations on the ground as well. On 05-02-2014, I spoke with representatives from ASO-220 and FSDO-11 in regards to any knowledge of this filming operations, in particular the UAS operation. Both offices had no knowledge of such operation. I then began to investigate as to whom may be filming in Griffin at this time. I researched the Griffin Daily News website and located an article in regards to a company by the name of Stalwart Films being in the area filming the same week. I also researched the internet for a contact number for Stalwart Films. Once I found a local contact number for Stalwart Films, I proceeded to contact them in regards to the UAS operation on 05-01-2014. I was given a name of [redacted] in production to speak to. I contacted [redacted] and began to inquire to the UAS operation. [redacted] denied that Stalwart Films was operating a UAS type vehicle or "drone" as he mentioned for filming purposes but did confirm they were filming in the same location as I observed the UAS operation. I drove the same route on 05-03-2014 but did not observe any filming type operations. On 05-05-2014 I overheard a report of a similar type UAS operated on or about 05-03-2014 in the McDonough, Georgia area in what appears to be the approach area for KATL. It was reported that this aircraft may have been operating at an altitude of about 4000 ft. I find it interesting that a similar type UAS aircraft operating in 2 areas relatively close in proximity in a time span of only a couple of days. There is a concern as to the safety of the operation of this type of UAS platform for the use of filming in what the FAA considers a populated or urban area and lacking an evaluation by the FAA in regards to the necessity of a Certificate of Authorization as per Notice 8900.227, effective 07-30-2013. |

| | | | |
|-----------------|-------------|------------|--|
| 4/20/2014 0:00 | Atlanta | Georgia | A report of two men flying a UAS on short final to Runway 9R at 400' by several airliners. After notification and discussion with ROC and the tower supervisor, I advised Airports to contact local police. Tower subsequently tasked Landside operations to investigate. No documentation was received from Landside operations and only identification was that it was a fixed wing a/c and there were two men in a white van. Police did not show (were called off by Landside). |
| 4/11/2014 0:00 | Wheeling | Illinois | The Cook County Police informed Regional Counsel that they were investigating a crashed unmanned aircraft (UA) found on the property of Tech-cor, in Wheeling, IL. The street address is 100 E. Palatine Rd., Wheeling IL. This is approximately 1/4nm from Chicago Executive Airport (PWK). The UA was found by a Tech-cor guard on the business property during morning rounds on Sunday 4/6/14. The aircraft appears to be a Lumenier QAV540G quadcopter, with a first-person-view camera attached. It had two broken propellers, but otherwise no apparent damage. There was no additional camera for taking and/or storing imagery. There is no other evidence to the cause of the crash. There is no evidence as to what the purpose or mission of the UA was. This record is being closed with no further action required |
| 4/8/2014 0:00 | Cypress | Texas | <p>On 08Apr14, a store customer observed a UA fall from the sky at an HEB food store in Cypress, TX. The customer found the UAV lying on the ground with a small camera attached. According to the SOI, no one has been able to determine who the UA belongs to.</p> <p>While Cypress, TX does not contain any MTSA-regulated facilities, this city is located within the Sector Houston-Galveston AOR. This report is the fourth such report on UAs in the past month for the AOR. The same day of the UA discovery, there was a major traffic fatality accident nearby on State Highway 290. It is possible that the UA could have been used to obtain aerial photographs of the accident scene, which was a major media event in the Houston area.</p> |
| 4/6/2014 0:00 | Silver Lake | Michigan | PILOT REPORTED A UAV 1/4 MILE EAST OF SILVER LAKE AT 2,300 FEET MSL. THE UAV WAS REPORTED TO BE A HELICOPTER APPROXIMATELY 1 METER IN DIAMETER. LOCAL LAW ENFORCEMENT ADVISED. |
| 4/1/2014 0:00 | Everett | Washington | A pilot that was flying his personal aircraft just outside class D airspace west of Paine Field Washington claimed he was at 2,500 feet MSL approaching Paine Field when an unmanned helicopter passed by him at his altitude within 200 feet laterally. I called Paine Field and they had no knowledge of the unmanned helicopter. The pilot in the airplane estimated the size of the helicopter to be around 3 feet. |
| 3/22/2014 19:45 | Tallahassee | Florida | AT 1945Z PILOT REPORTED TO TLH TOWER THAT HIS AIRCRAFT ALMOST STRUCK A REMOTE CONTROL AIRCRAFT 3 MILES NORTHEAST OF TLH AIRPORT AT 2300' |
