Pop-up Blockers for IACRA

Apple Safari

For Apple OS iPad

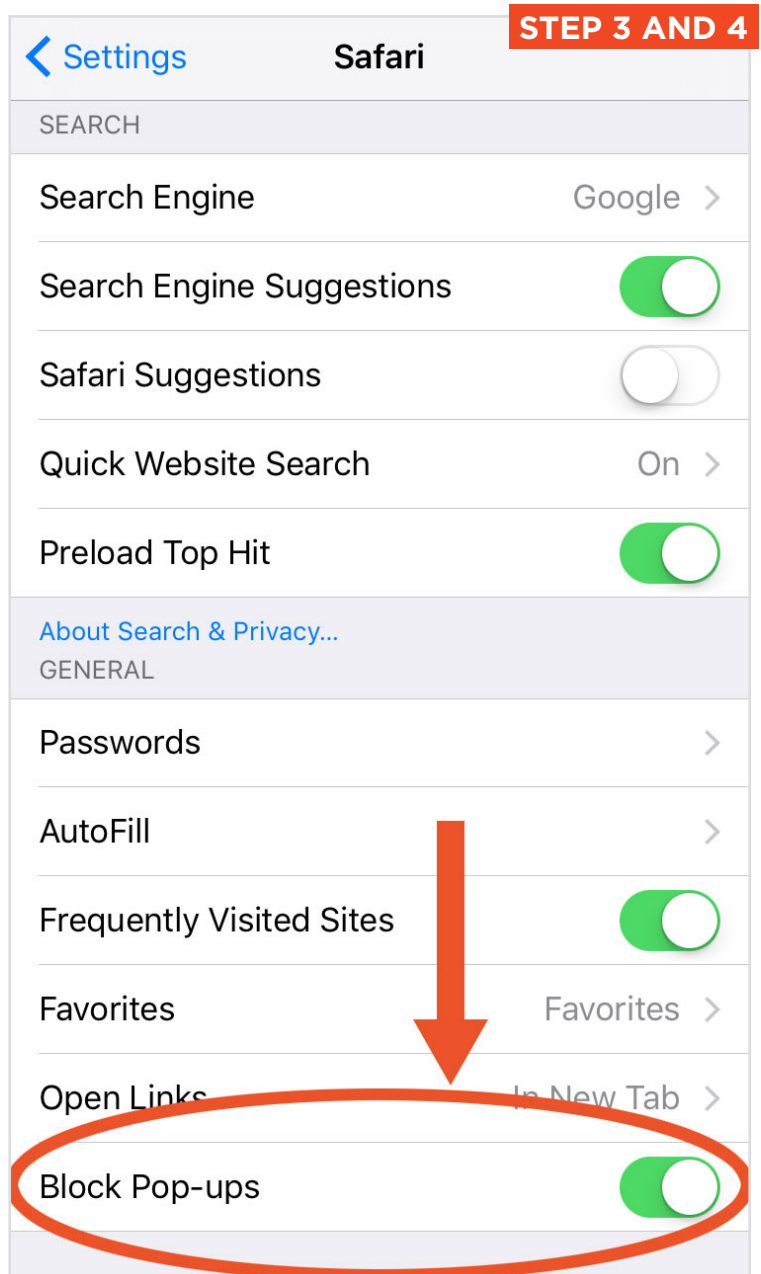

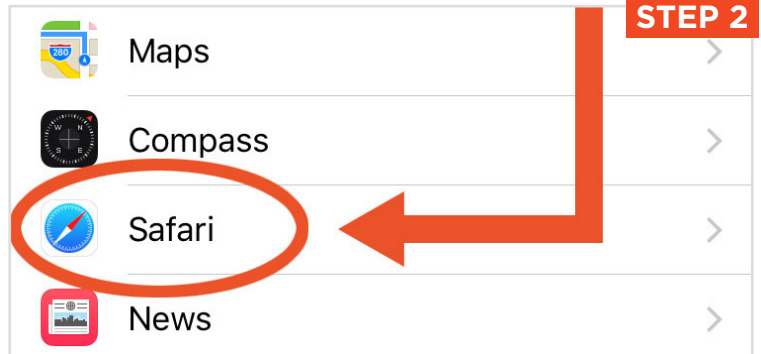

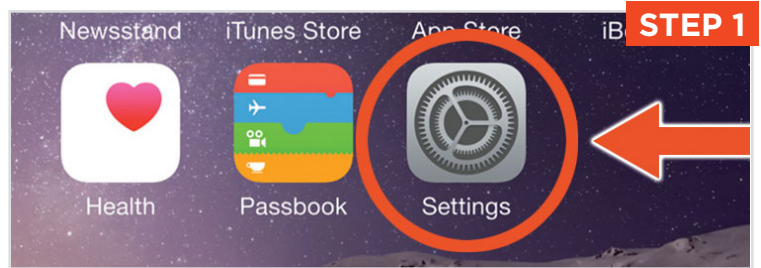

Pop-up Blocker blocks or limits pop-ups on sites that you visit. The IACRA CFI renewal process has several pop ups that need to be seen to complete the process.

To make sure you do not miss any important portions of the form. Turn off your pop-up blocker before you begin the process.

To turn Pop-up Blocker Off

1. Open Settings. This is the gray gear icon on your iPad's home screen. **Not** in the Safari browser itself.
2. Scroll down on the first menu to the Safari menu.
3. Scroll down in the Safari menu to Block Pop-Ups.
4. Click the toggle button to turn off the Pop-up Blocker. When pop-ups are not blocked the toggle will be gray.
5. Hit the "Home" button, the round physical button on the front of your iPad and select the Safari browser.
6. Visit IACRA.FAA.gov
7. Repeat these steps, **after you have completed your IACRA process** to turn your Pop-up Blocker back on. When restored to block pop-ups, the toggle will be green.

Note: iPhones are not recommended for use with the IACRA site.
