

AOPA FOUNDATION

2016 AOPA FOUNDATION

ANNUAL REPORT

2016 AOPA Foundation Annual Report 1

Just as we all needed help to earn our pilot certificates, AOPA needs our support to reinvigorate general aviation and make the dream of flight a reality for those who will follow us as aviators.

TABLE OF CONTENTS

03		About AOPA Foundation
05		Message from Mark Baker
06		Message from Bill Ayer
10		AOPA Foundation Financial Statement
12		AOPA Air Safety Institute Milestones & Achievements
16		Building & Strengthening a National GA Community
20		AOPA Foundation Leadership
24		2016 AOPA Foundation Donors

None of this would be possible without the philanthropic support of donors to the AOPA Foundation.

ABOUT THE AOPA FOUNDATION

As the charitable arm of AOPA, the Foundation raises funds through gifts from generous donors like you to support the important work that membership dues don't cover. Our goal is to find opportunities of growth for every AOPA member and the entire general aviation community.

AOPA FOUNDATION MISSION

The AOPA Foundation, a 501(c) (3) tax-exempt charitable, educational and scientific organization, educates the public on the value of general aviation. The AOPA Foundation works to improve aviation safety through the Air Safety Institute, preserve community airports, and encourage learning to fly for career and personal benefit—all in the interest of ensuring the future of general aviation in America.

A person wearing a blue long-sleeved shirt and jeans is standing in front of the fuselage of an aircraft. The background is dark, and the aircraft's structure is visible. A solid blue rectangular block is positioned on the left side of the image, partially overlapping the text.

Together we are making a difference.
We are providing options to make flying
more affordable and resources to make
flying safer. And we are focusing on
strengthening the community of pilots
today and for future generations.

MARK R. BAKER
AOPA PRESIDENT & CEO

A MESSAGE FROM MARK BAKER

Since I was young, I dreamed of flying, but like every pilot, I would not be where I am today without support from the entire aviation community. From the opportunity to complete ground training in high school to the many friends and mentors who shaped my flying, an earlier generation of pilots helped me realize my dream. Now as President and CEO of AOPA I am fortunate enough to be able to do the same for future aviators.

Just as we all needed help to earn our pilot certificates, AOPA needs our support to reinvigorate general aviation and make the dream of flight a reality for those who will follow us as aviators.

Together we are making a difference. We are providing options to make flying more affordable and resources to make flying safer. And we are focusing on strengthening the community of pilots today and for future generations. I hope you will join us as we continue this good and important work. We need you. Your philanthropic spirit and financial contributions make it all possible. 

Mark R. Baker
President and CEO, AOPA

A MESSAGE FROM BILL AYER, CHAIRMAN OF THE AOPA FOUNDATION BOARD OF ADVISORS

As a proud member of the AOPA Foundation Board of Advisors, I know my contributions—both time and money—are making a positive impact on general aviation. Yours are too, and for that I thank you.

Our support continues to touch the lives of hundreds of thousands of pilots each year through the AOPA Air Safety Institute. ASI sets the industry standard for aviation safety education and research. For the first time in the 25-year history of the *Joseph T. Nall Report*, the rate of fatal accidents in noncommercial, fixed-wing aircraft dropped below one fatal accident for every 100,000 flight hours. ASI's online education, seminars, publications, accident analyses, and CFI renewal courses, which were accessed more than 2.5 million times in 2016, have had a positive effect on general aviation's safety record. Here are some additional highlights:

- More than 27,000 people have subscribed to ASI's YouTube video channel
- 14 new safety videos were produced and promoted by ASI
- Nearly 22,000 pilots attended in-person community-based safety seminars
- More than 8,000 flight instructors renewed their certificates through ASI's online and in-person Flight Instructor Refresher Courses

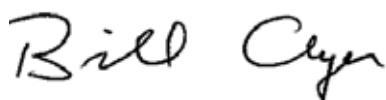

Our support also makes it possible for the You Can Fly program to continue developing its practical, rigorous, and engaging initiatives designed to build a bigger, stronger and more vibrant pilot community. Here are some highlights from 2016:

- AOPA collaborated with Purdue University to create the foundation for a series of four-year STEM curricula designed to prepare high school students for careers as pilots, aerospace engineers, and in drone-related fields
- 25 flying clubs were added to AOPA's existing network of over 800 clubs, providing affordable access to aircraft and the support of a like-minded community of pilots
- More than 1,400 pilots returned to active flying status in 2016 as a direct result of the Rusty Pilots initiative—more than 3,000 since the program started in 2014
- More than 6,200 submissions were received for the Flight Training Experience Survey and Excellence Awards—an all-time high; 70 flight schools and 60 flight instructors were recognized by AOPA for excellence in the field.

These accomplishments illustrate the good work that is happening at AOPA, and the tangible results that work is delivering. None of this would be possible without the philanthropic support of donors to the AOPA Foundation. I am grateful to be able to work with the AOPA team and to witness first-hand the Association's successes. AOPA is ideally positioned to lead the effort to bolster general aviation, and together we are making a very real impact for a brighter future. 

Thank you.

Fly Safely,

Bill Ayer
Chairman, AOPA Board of Advisors
Former Chairman and CEO of Alaska Air Group
ATP, CFII and Malibu owner since 1984

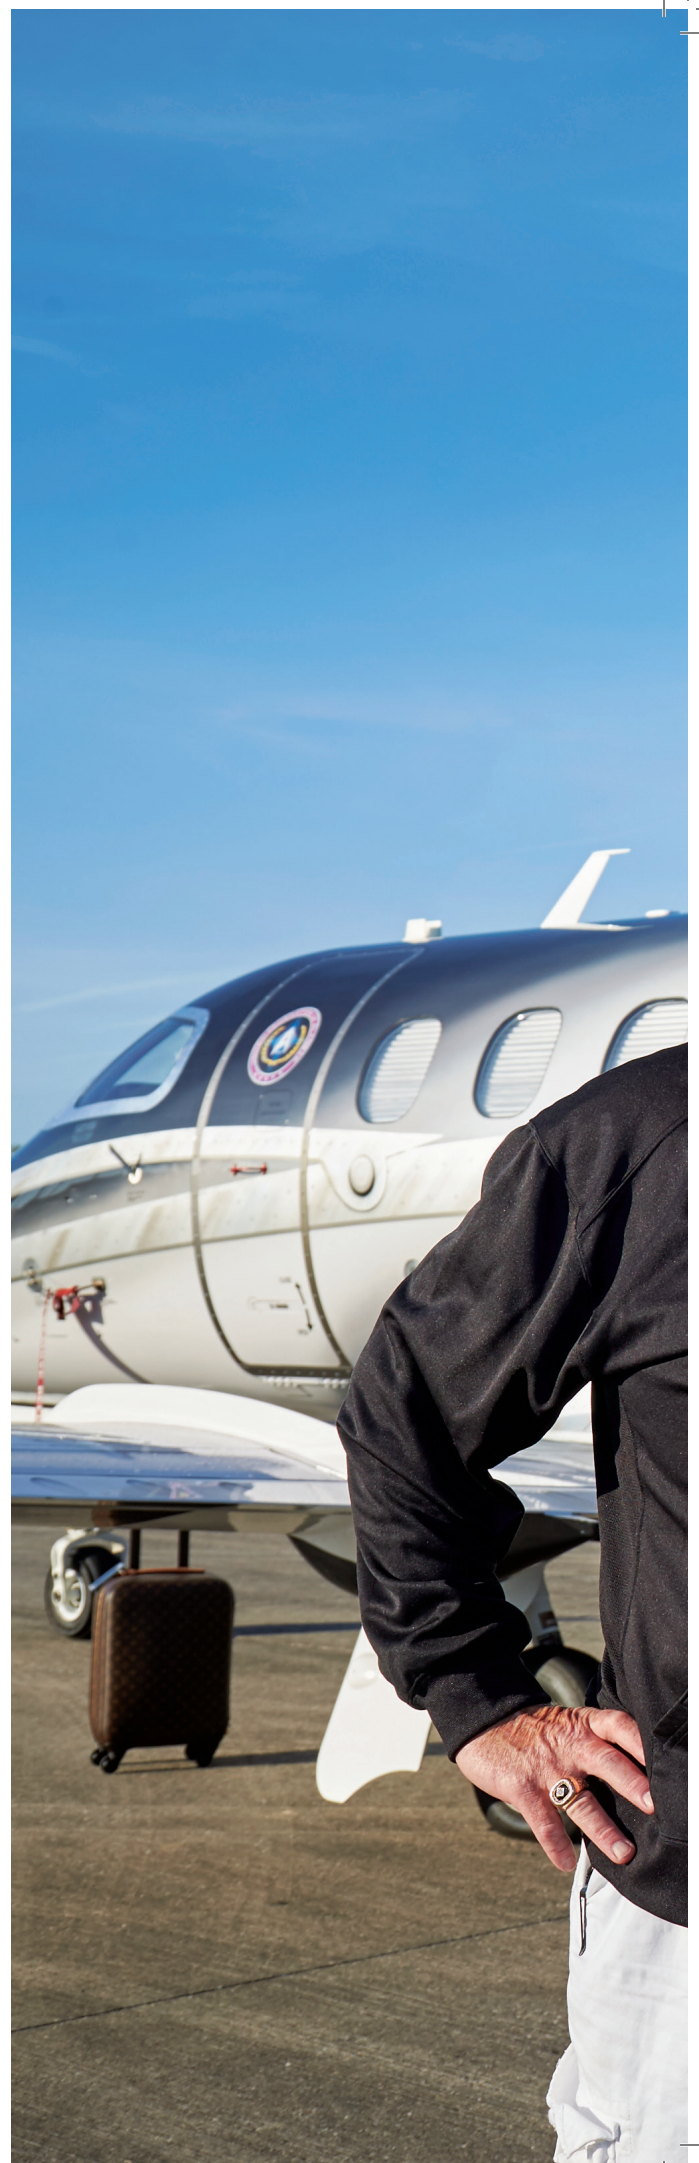

Each year, the Air Safety Institute's products and programs are expanded, updated, and improved, thanks to the generous gifts from AOPA Foundation donors like you.

AOPA AIR SAFETY INSTITUTE 2016 MILESTONES & ACHIEVEMENTS

Since AOPA's earliest beginnings more than 75 years ago, safety has been among our primary missions. Today, the Air Safety Institute is the world's undisputed leader in providing safety and proficiency training and resources to pilots—absolutely free of charge. Each year, ASI's products and programs are expanded, updated, and improved, thanks to generous gifts from AOPA Foundation donors like you.

EXTRAORDINARY PARTICIPATION IN ASI PROGRAMS

2016 was another active and successful year as users of the AOPA Air Safety Institute's products, including online courses, videos, in-person seminars, and flight instructor renewal courses, exceeded 2,500,000. Contributing to our success was the development of 14 new safety videos, nine new publications including the *25th Joseph T. Nall Report*, personal minimums contracts for VFR and IFR pilots, two live seminars conducted at 200 locations nationwide, two online course conversions that allow for viewing on all mobile devices, and much more.

PROMOTING SAFETY THROUGH SOCIAL MEDIA

ASI's Facebook presence increased to more than 180,000 followers in 2016—making our Facebook page one of the most popular GA sites on social media. In addition, more than 27,000 individuals have subscribed to our YouTube channel. We've seen more than 5,000 views per day of our ASI safety information through this one outreach program alone!

SAFETY SEMINARS

ASI hosted 200 live safety seminars throughout the country in 2016, attended by nearly 22,000 pilots and aviation enthusiasts. These seminars included:

- **Emergency! Getting it Right When Things Go Wrong:** Pilots spend time training for real-world emergencies, but they are so rare that it's easy to get complacent. Emergencies don't always happen to "other pilots" and preparation can make a big difference when things don't go as planned. This seminar is full of expert tips on how to keep abnormal situations from becoming full-blown emergencies, suggestions on keeping critical problems under control, and advice for making successful off-airport landings.
- **Trivia Night!** This seminar tested pilots' knowledge of the arcane while also exploring safety issues behind the trivia. From vintage nav aids to aerodynamics and little-known aircraft, the collection of questions put pilots' knowledge to the test—and made them safer.

NEW SAFETY VIDEOS

ASI expanded our online library of safety videos in 2016 which included the following:

- Margins of Safety: Avoiding Traffic Pattern Stalls
- Margins of Safety: Low Altitude Maneuvering
- Taming the Twin: Four Rules for Safe Multiengine Flying
- Look Out! Avoiding Terrain & Obstructions
- Engine Out! From Trouble to Touchdown
- Weather Wise: Mistakes We Make
- Weather Wise: Go/No-Go and Beyond
- Weather Wise: Awareness Aloft
- Weather Wise: The Future of Weather
- Accident Case Study: Unintended Consequences
- Four AOPA Regional Fly-In Procedures Videos

PUBLICATIONS

The Air Safety Institute published several recurring and new publications in 2016 including:

- *25th Joseph T. Nall Report*
- *2014-2015 General Aviation Accident Scorecard*
- *CFItoCFI* newsletter
- *USAIG Premium On Safety* newsletter

Based on extensive research, AOPA has found flying clubs can address many of the issues general aviation faces — affordability, access to aircraft, and camaraderie.

BUILDING & STRENGTHENING A NATIONAL GA COMMUNITY

You Can Fly is not just a slogan. It's a collection of practical, rigorous, and engaging initiatives designed to help build a bigger, stronger, more vibrant, and more resilient pilot community.

There's no question that GA is facing some serious challenges — falling pilot numbers, alarming student dropout rates, high costs, and pilots who simply drift away because they lack the support and inspiration they need to keep flying.

But it doesn't have to be that way. There's no one-size-fits-all solution, but we are helping GA take off by simultaneously tackling these challenges with multiple targeted initiatives designed to address the most common and significant obstacles our community faces.

Through extensive research and real-world experience, AOPA has developed initiatives to support flying clubs, encourage best practices in flight training, get lapsed pilots back in the air, bring AOPA's resources and expertise to pilot groups across the country, and invite high school students to learn more about careers in aviation and aerospace.

Taken together, these initiatives make up You Can Fly — a powerful, multifaceted approach to making flying more accessible and affordable.

RUSTY PILOTS

AOPA's Rusty Pilots initiative was first developed in 2014 to help aviators get current again. Since then, more than 3,000 lapsed pilots who have attended one of the more than 400 seminars across the country have gone on to successfully complete their flight review. Additionally, to meet the needs of the many pilots looking to fly under the recent BasicMed reforms, we are hosting up to 300 Rusty Pilots seminars nationwide in 2017.

FLYING CLUBS

Based on extensive research, AOPA has found flying clubs can address many of the issues general aviation faces — affordability, access to aircraft, and camaraderie. In response, AOPA created the Flying Club Network which is free to join and offers benefits including a premium listing in the AOPA Flying Club Finder, exclusive insurance rates, and access to networking events. The Network now has more than 800 listed flying clubs. Additionally, AOPA staff worked directly with pilots to help launch 25 new flying clubs in 2016.

HIGH SCHOOLS

The mission of AOPA's Aviation High School initiative is to help build and sustain aviation-based STEM programs in high schools in order to provide a quality workforce to the aviation industry. Last year the initiative began development of four-year curricula for high school classrooms to help prepare students for careers and advanced studies in piloting, aerospace engineering, and

drone-related fields. The initiative also awarded \$105,000 in scholarships to high school students and attracted nearly 200 educators to the second annual AOPA High School Aviation STEM Symposium in Seattle. The 2017 symposium will be held in Dallas in November and the ninth grade courses will begin field-testing in schools this fall.

FLIGHT TRAINING

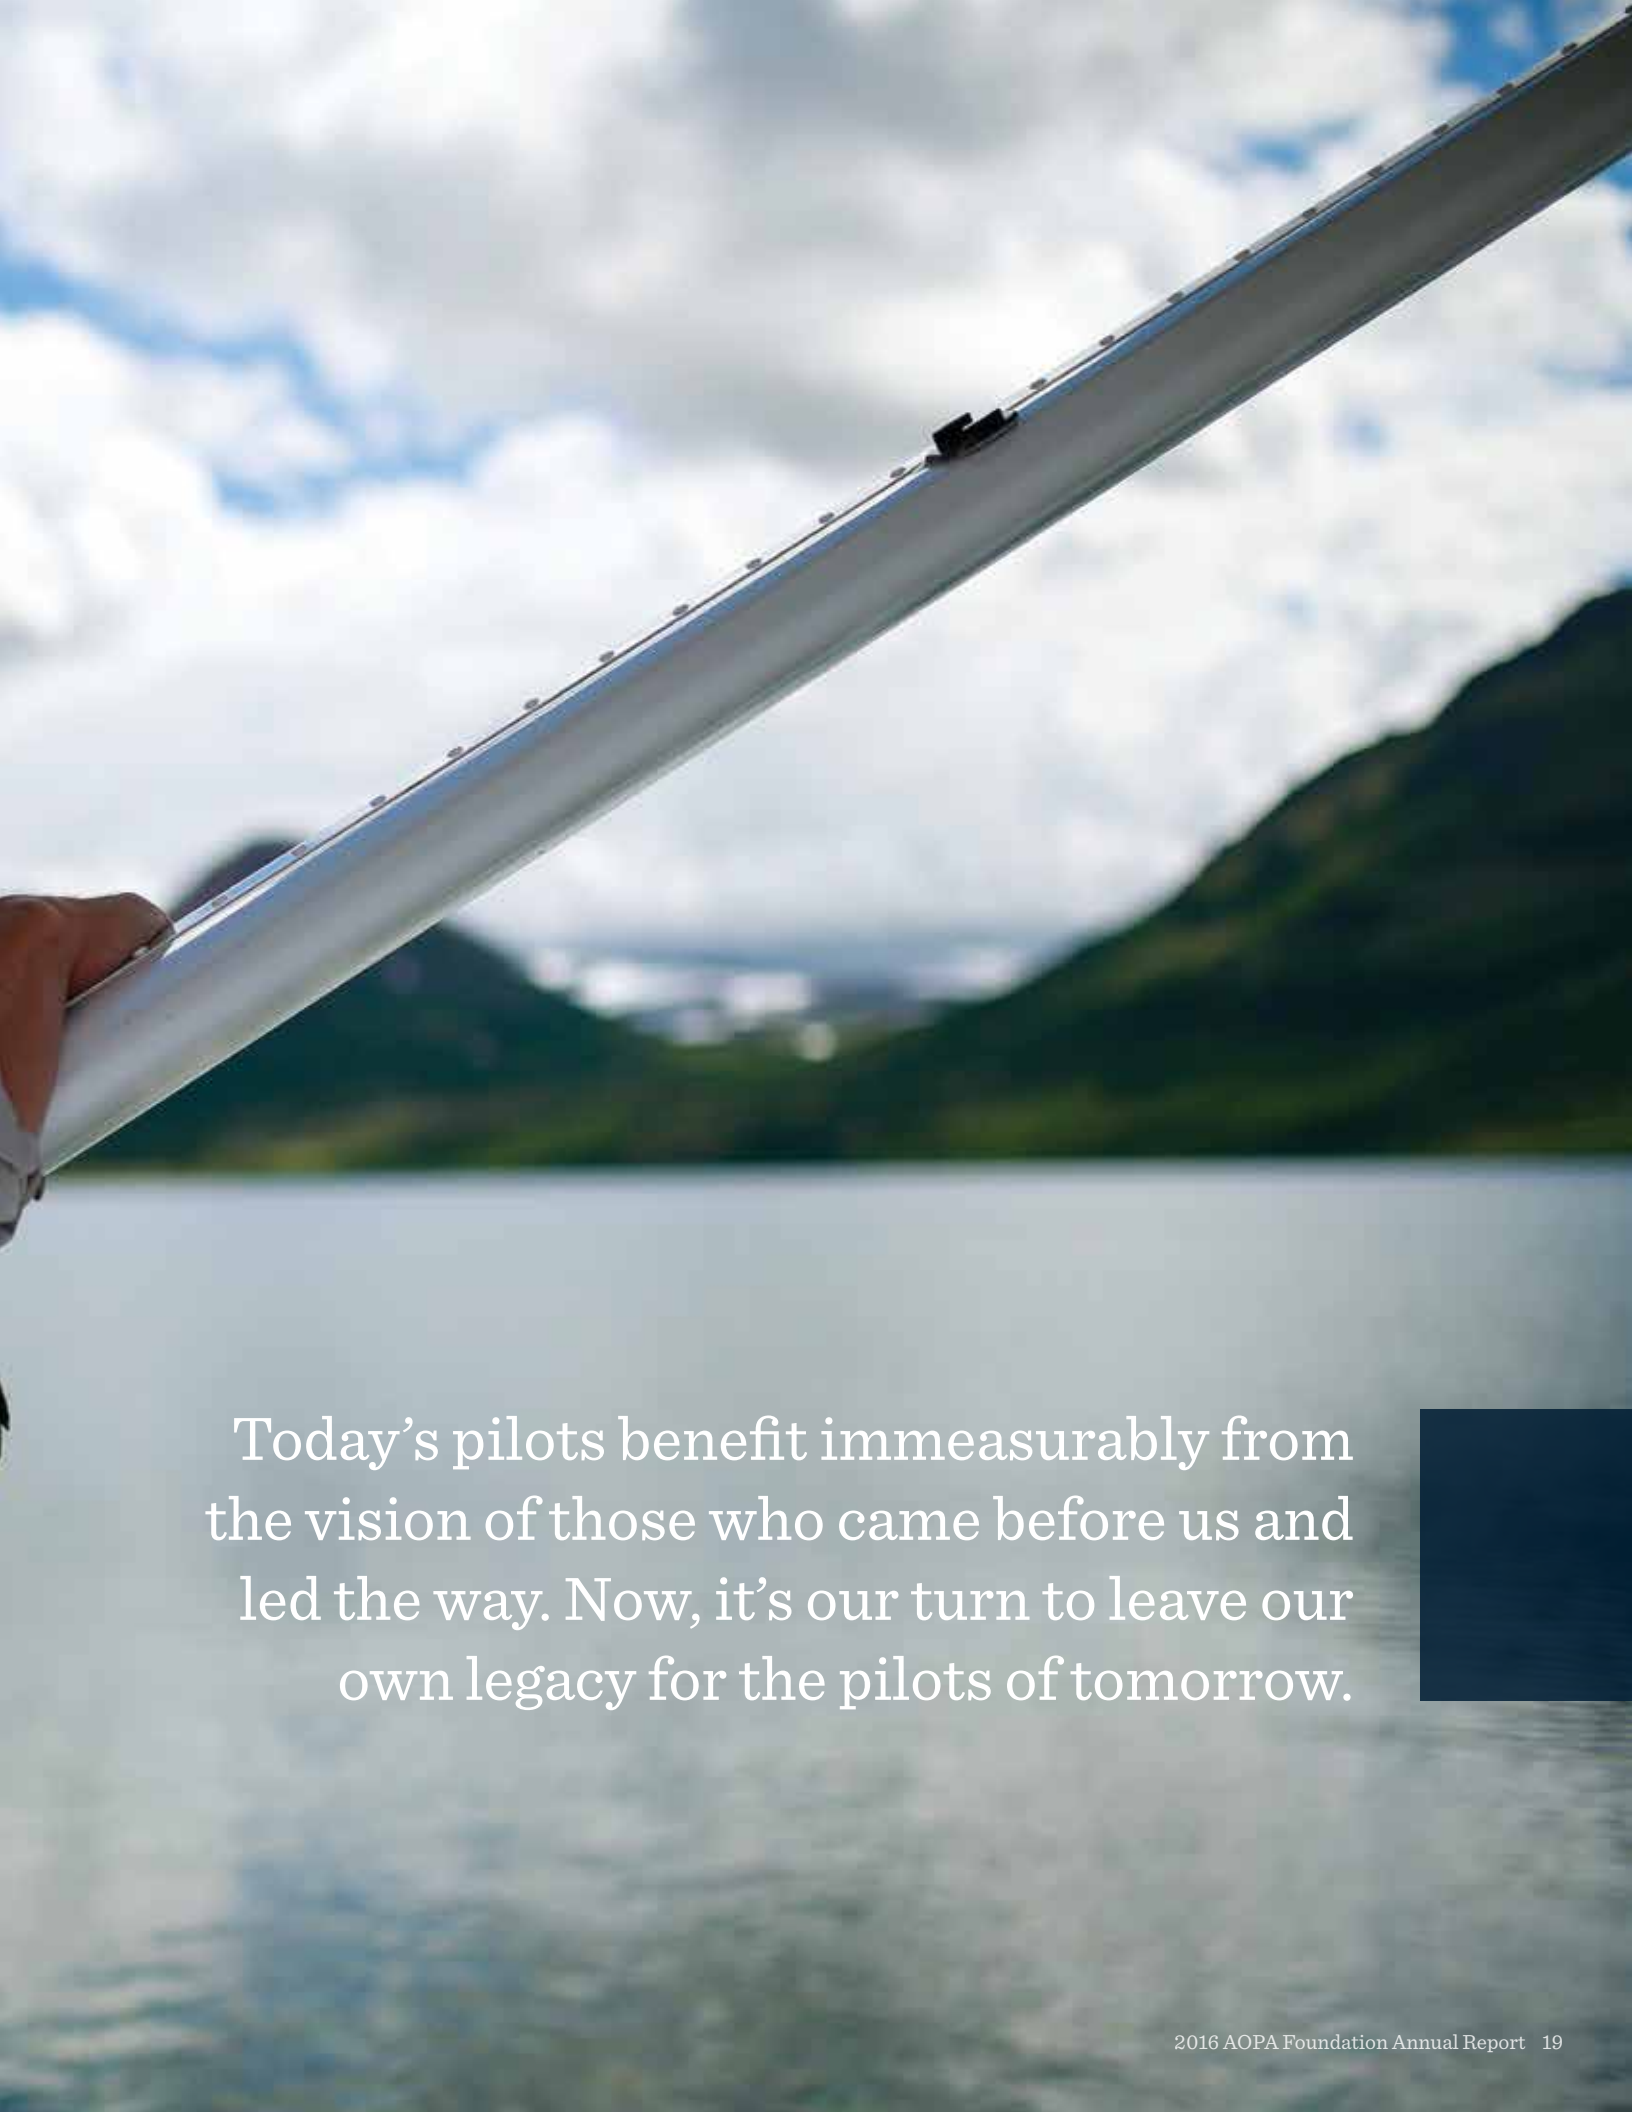

Every year AOPA conducts the Flight Training Experience Survey, which offers students an opportunity to provide feedback about their training experiences, and gives participating schools the chance to learn about what they are doing well and where there may be room for improvement. In 2016, AOPA reached a new record of participation in the survey with 6,200 completed submissions and recognized 70 flight schools and 60 instructors for their exceptional performance with AOPA Flight Training Excellence Awards. 

SCHOLARSHIPS

In addition to the 21 recipients of the You Can Fly high school scholarships, 21 other aviation enthusiasts are on their way to earning their pilot certificates thanks to generous gifts to the AOPA Foundation in 2016. Two more will be able to attend aviation summer camps, and another has received financial assistance to pursue a flight science degree in college. In all, the AOPA Foundation provided over \$300,000 in scholarships to 45 individuals of all ages.

These scholarships, and the contributions that made them possible, have a direct impact on the vitality and future of general aviation and AOPA is honored to be able to use your donations to help fulfill dreams of learning to fly. 

A close-up, low-angle shot of a hand holding the leading edge of a white airplane wing. The wing extends diagonally from the bottom left towards the top right. The background is a soft-focus landscape featuring a calm body of water in the foreground, a range of green mountains in the middle ground, and a sky filled with white and grey clouds. The lighting is natural, suggesting an overcast day.

Today's pilots benefit immeasurably from the vision of those who came before us and led the way. Now, it's our turn to leave our own legacy for the pilots of tomorrow.

ENDOWMENTS

Creating an endowment demonstrates the passion we have for aviation by providing an ongoing source of fundraising for the AOPA Foundation's work. Platinum level are endowments of \$100,000 or more, Silver level are endowments of \$50,000 to \$99,999 and the base level begins with cumulative endowment gifts totaling \$10,000 to \$49,999,

PLATINUM ENDOWMENTS

Morton M. Bass
Ned W. Bennett and Sandra G. Zane
Mark Jon Bluth
Paul F. Burger
Fred and Diane Fitts Memorial Flight
Training Scholarship Fund
Elliott Gindi
Barron Hilton
Michael Lazar
Manuel S. Maciel
Minnesota Life

Erral Lea Plymate Memorial
Endowment
James W. Robins
John J. Serrell
Lessing S. Stern

SILVER ENDOWMENTS

L.R. Fountain
H. Neel Hipp
Scott William Hudelson
Memorial Endowment
Fitzgerald S. Hudson

Lou Torres
Ronald K. Vickrey

ENDOWMENTS

William P. Anderson
Raymond J. Bailey
Michael C. Baldwin
John S. Broome
